50X1

1. On 10 September 1954 a meeting was held at the [] plant for the purpose of presenting the completed RS-13 specifications. Those attending were:

50X1

50X1

2. Specification No. 54-A-1035-A and other descriptive data, such as photographs and schematics, were delivered to []. Noted is that the requirements for the RS-13 have expanded somewhat since earlier discussions. Most important of these is the requirement for a universal power supply as defined in section 3.4. of the specification.

50X1

3. A breadboard version of the keying circuitry has been completed and partially tested. The wave form was observed and found to be satisfactory at keying rates considerably in excess of the proposed requirements.

4. There was little or no discussion at this time regarding cost or delivery as the problem at hand was to define, explain or otherwise clarify the specifications. The meeting closed with the assurance that a formal proposal would be submitted in the near future.
